Read this message from our Owner, Jonathan Hunsaker

Dear Dedicated Friend,

You are someone we want to partner with.

That's because we share the same mission.

We want to inspire people to live a healthy life. And like you, we want to give them the tools, guidance, and information they need to achieve their health goals.

We use **INSPIRED** as our acronym to describe the 8 pillars of health. And research shows that these are 8 essential processes to address – so you can achieve optimal health and wellness.

Here's what the acronym means...

- I INFLAMMATION** It's the #1 cause of most chronic diseases.
- N NUTRITION** Eating whole foods is vital for good health and well-being.
- S SUPPLEMENTATION** It's impossible to get all the nutrients you need out of food alone.
- P PHYSICAL EXERCISE** Movement helps pump toxic fluid from your lymphatic system.
- I IMMUNE SYSTEM** It's your body's own self-defense mechanism that protects you from disease.
- R REST** If you don't rest and recuperate, you can't be truly healthy.
- E EMOTIONS** Positive emotions and good energy help facilitate health.
- D DETOXIFICATION** Safe, gentle detox is needed to cleanse your overworked organs.

If you agree, then please continue reading this catalog. You'll see discounts on high-quality, effective supplements that can make a difference in the lives of your patients or clients.

Your colleagues trust us. Why not take a moment to explore how an **Organixx** wholesale partnership can help meet your clients' health needs... and provide you with a steady stream of income to help grow your business or practice.

Welcome to **Organixx** and to helping others live an **INSPIRED** life,

Introducing our first of its kind... USDA certified... 100% organically pure **Cricket Super Fuel** powder! It’s the simple, hassle-free way to get potent levels of Vitamin B12 into your diet every single day!

The USDA reports: over 40% of Americans suffer from low Vitamin B12 levels. And that’s a serious problem since B12 deficiency is linked to a host of health problems including...

- Shortness of breath
- Depression
- Numbness and tingling
- Heart palpitations
- Memory loss
- Muscle weakness
- Vision loss
- Constipation... diarrhea... excessive gas
- And more

But now there’s great news! Clinical studies confirm that crickets contain **30 times more vitamin B12 than beef!** And that’s not all... crickets are also rich in protein... iron... calcium... omegas – and low in carbohydrates!

It’s no wonder scientists are calling crickets the breakthrough SUPERFOOD of the century. No other “bug” comes close to the nutrient-rich power locked away in crickets!

Our exclusive **Cricket Super Fuel** powder formula has a mild, nutty flavor – similar to almonds – that tastes great in smoothies... shakes... and even your favorite organic juicing recipes.

The “miracle nutrition” of homemade bone broth, without the hassle of cooking!

Making your own bone broth from scratch can be difficult, expensive, and time-consuming. First, you have to find bones from organically-raised, free-range chickens or grass-fed beef. And these organic bones can be costly. Then, you slow-simmer the bones in water for 24 to 48 hours to pull all the collagen, protein and other nutrients into the broth.

If you don't have time for all that, here's good news...

Organic Bone Broth Protein from **Organixx** offers the health benefits of nutrient-dense homemade bone broth without any of the mess of trying to make it yourself. It's rich in protein, gelatin, collagen, amino acids, glucosamine, chondroitin, glycine, hyaluronic acid... and trace amounts of minerals, such as potassium, magnesium, and selenium.

It's even better than homemade. And **Organic Bone Broth Protein** tastes better too. You can choose from 3 delicious flavors, creamy vanilla, smooth chocolate and plain.

And it's so fast and easy to make. All you have to do is

simply mix the rich powder in water... juice... milk... or a smoothie. Just scoop, stir, and enjoy!

Green drinks offer an easy and tasty alternative to juicing. Just one scoop of **Organic OrganiGreens** gives you a comprehensive blend of 71 green plants, vegetables, and fruits to maximize your nutrient-intake... and promote your body's natural detoxing process, help enhance your immune system, aid in smooth digestion and boost energy.

Organic OrganiGreens also adds nutrient-rich mushrooms for strengthening immunity... along with beneficial herbs and spices... and 17 powerful enzymes and probiotics for healthy digestion.

Other green drinks simply grind up the grasses and vegetables into powder. Instead, **Organixx** juices the grasses, vegetables, and fruit **FIRST** and then turns the juice into powder. This increases the nutrient content in each scoop. You get 4 **TIMES** the vitamins and minerals of other green drinks.

For the **BEST**, most bioavailable nutrition available that's **33X MORE** potent than juicing alone... simply mix one scoop of **Organic OrganiGreens** into water, juice, or your favorite smoothie and enjoy.
